

Limbo

Patrick Wolf

Ohhh limbo

The f16 procession
Burns a hole in heaven
Strike force crossing your face
So tender comes the temper
Speeding up right and centre
Of D.F.T.D.C base

Passing the war museum
Just enough time to see them
Building a new wing again
How long 'til we get there?
Much longer and I don't care
If we ever do

And will we run each other
Out of limbo
Or shuffle off Buffalo?
Side by side or never
Out of limbo
Where you stonewall
And I hollow

And the devil behind me
Starts begging
Jesus take the wheel
Don't ask
I won't bargain
Don't tell
I beg your pardon?
Come on
Tell me how I feel

Plague summer waning
Next, what will you be blaming
For this wilderness road?
Six years into the liquor
And the plot gets thicker
Darling, so do you

And will we run each other
Out of limbo
Or shuffle off Buffalo?
Side by side or never
Out of limbo
Where you stonewall
And I hollow

In the rear view mirror
The scud cloud explodes
We pull up slow
To the scapegoat and the rainbow
With the world on fire
And your hand babe
Ballistic in mine

Out of limbo

We could be running
Running out of limbo
We could be running
Hollow? Hello?

We could be running
Running out of limbo
We could be running
Hollow? Hello?

Hollow? Hello?
(Ohhh limbo)
