

By The Grace Of God

Patti Austin

By the grace of god I will survive
By the grace of god I will stay alive
By the grace of god I will see another day
I will find a better way
By the grace of god

By the grace of god I will see the light
By the grace of god I will find my mind
By the grace of god I will find inside of me
The best that I can be
By the grace of god

In the universe we will see me through
My heart will tell me what to do
From all the trues I know
I know for sure this one is true
I will make it true
By the grace of god

By the grace of god I will survive
By the grace of god I will stay alive
By the grace of god I will see another day
I will find a better way
By the grace of God

In the universe we will see me through
My heart will tell me what to do
From all the trues I know
I know for sure this one is true
I will make it true
By the grace of God...
