

## People In Love (Do the Strangest Things)

Patti Austin

Walking in the rain, they're right there having fun  
Yeah, they're soaking wet from the rain, just loving this world  
Sing songs, they stood around and played them all day long  
People in love do the strangest things

Sitting in the park from noon 'til dark  
Planning the future, watching stars  
Time means nothing to them 'cause they are so in love  
People in love do the strangest things  
People in love do the strangest things

The phone stays busy with lover's conversations  
They talk and talk 'til the words don't even come  
They hang up the phone, but it won't be very long  
Before it starts all over again

Sitting in the park from noon 'til dark  
Planning the future, watching the stars  
Time means nothing to them 'cause they are so in love  
People in love do the strangest things  
You know that people in love do the strangest things  
They hang up the phone, but it won't be very long  
Before it starts all over again  
Oh, oh-oh

Walking in the rain, they're right there having fun  
Getting soaking wet from the rain, just loving this world  
Sing songs, they stood around and played them all day long  
People in love do the strangest things  
You know that people in love do the strangest things

People in love do the strangest things, yeah, yeah  
People in love do the strangest things
