

Finally We're Back Together

Patti LaBelle

Is it really you
Can this be true
We're finally
Back together
You've been on my mind
I think of you all the time
Since you've been away
I've missed you day after day

Ain't it funny how
Life goes around, but
Ooh is this for real
Finally we're back together, and
Ooh if you wanna know
I still love you so
Finally, we're back together

When I looked in your eyes
I realized that you got to be
The only one for me
It was hard to believe, we both agreed
We should be, we should be together

You know I've missed you
I've missed you
I've missed you baby

You know I've missed you
I've missed you
I've missed you baby
