Release

Patti LaBelle

Now is the time, time to release
Time to release your love
Now is the time, time to release
Time to release your love

We've been in a spare mate, so long
Like we're locked up in a prison (Locked up in a prison)
And oh, oh, oh
To be that way with you

Release), release the tension
There's too much fraction in the world today
Release, show some emotion
And let the motion rock us that way, rock on, rock on (Rock on)

Release (Release), release the tension (Release)
There's too much tension in the world today
Release (Release), show some emotion
And let the motion rock us that way, rock on, rock on

We've been in a standstill so long
And it's not getting any better (Not getting any better)
Slowly, slowly, slowly
Drifting apart

Oho, release, release the tension
There's too much tension in the world today
Release, show some emotion
And let the motion rock us that way, rock on, rock on, rock on

Release (Release), release the tension (Release)
There's too much tension in the world today
Release (Release), show some emotion
And let the motion rock us that way, rock on, rock on

Now is the time, time to release
Time to release your love
Now is the time, time to release
Time to release your love

Release (Release), release the tension (Release the tension)
There's too much tension (There's too much tension) in the world today
Release (Release), show some emotion (Show some emotion)
And let the motion (And let the motion) rock us that way, rock on, rock on,
rock on

Release (Release), release the tension (Release)
There's too much tension in the world today
Release (Release), show some emotion (Release)
And let the motion rock us that way, rock on, rock on

Rock on, rock on, rock on, ooohooo!
(There's too much tension in the world today)

(Release, release, show some emotion)
(And let the motion rock us that way, rock on, rock on, rock on)
