

You Gonna Make Me Love Somebody Else

Patti LaBelle

You gonna make, make me love somebody else
If you keep on treating me the way you do
I don't want to do

You gonna make, make me love somebody else
If you keep on treating me the way you do
I don't want to do

I done nothing to you
I just love you with my heart and soul
Every time I need some loving you just turn cold

I ain't dumb, I ain't stupid
I know you need love, need love like I do
'Cause if ain't loving me
I want to know who in the world are you loving
Tell me, you don't need me around?

You gonna make make me love somebody else
If you keep on treating me the way you do
I don't want to do

You gonna make, make me love somebody else
If you keep on treating me the way you do
I don't want to do

I don't say nothing to ya, I don't say a word
When you stay out, stay out all night long
I know you got to make money
But you gotta bring your loving home

What out there in the street
Taking up taking up all your time
'Cause if ain't loving me
I want to know who in the world are you loving
Tell me you don't need me around

You gonna make make me love somebody else
If you keep on treating me the way you do
I don't want to do

You gonna make make me love somebody else
If you keep on treating me the way you do
I don't want to do

You gonna make me love somebody
You gonna make me love somebody
You gonna make me concentrate on another man

I need love just like you do
Now tell me you been giving it to
I need love just like you do
Now tell me you been giving it to

I don't want to do it
I don't want to do it

If you keep on, baby
I going to be gone
I need love just like you do
Now tell me who been giving it to

You gonna make, make me love somebody else
If you keep on treating me the way you do
I don't want to do

You gonna make make me love somebody else
If you keep on treating me the way you do
I don't want to do
