

Love (Stand Up)

Patti Scialfa

Love... you're the one
the well known pleasure...
under my tongue
my holy water...
my gypsy rain
come and find me... once again
because you are everything I wanted

I need your faith...
I need your love
To take my place...
To rise above to stand up

Love, be my cure
be my medicine...
simple and pure
take my sorrow...
take my pain
and come and find me... once again
because you are everything I wanted

So give me your faith...
give me your love
and I'll take my place...
and I'll rise above
and I'll stand up

Give me hope and give me strength
and give me your soul understanding
give me faith and give me truth
and give me yourself everlasting
give me hope and give me faith
and give me your soul understanding
give me strength and give me truth...
and give me love

Love... you're the one
All of my medicine...
Under my tongue
because you are everything I wanted

And I need your faith
and I need your love
to take my place
to rise above
to take my place
I need your trust
So hear me now
And I'll rise above...
And I'll stand up

Stand up... stand up...
Stand up... stand up...

Give me hope and give me faith
and give me your soul understanding
