Grateful

Patti Smith

Ours is just another skin Simply slips away You can rise above it It will shed easily

It all will come out fine
I've learned it line by line

One common wire
One silver thread
All that you desire
Rolls on ahead

Like a ship in a bottle Held up to the sun Sails ain't going nowhere You can count everyone

Until it crashes unto the earth Simply slips away You can hide in the open Or just disappear

It all will come out fine
I've learned it line by line

One common wire
One silver thread
All that you desire
Rolls on ahead

Ours is just a craving
And a twist of the wrist

Will undo the stopper With abrupt tenderness Die little sparrow And awake singing

It all will come out fine
I've learned it line by line

One common wire
One silver thread
All that you desire
Rolls on ahead
