

# The Wheel

Patty Griffin

Here's a song about sitting in a dark room  
Losing track of your mind  
Here's a song about sitting in a dark room  
Knowing you're really lost this time  
Knowing you're really lost this time

Here's a song about the rain  
Coming down in sheets and sheets  
Here's a song about the rain  
Coming down in sheets and sheets

Water rising over the rooftops  
Water sinking into the ground  
Everything that I see around me is  
Drifting away or falling down

Here's a song about a man  
About a man I never met  
Here's a song about a man  
About a man I can't forget  
Choked to death by a policeman  
Said he could not catch his breath  
Choked to death by a policeman  
For selling single cigarettes

Here's a song about the wheel  
Wheel keep a going round and round  
Set in motion so long ago now  
No one can remember how  
Rolling, rolling over the ages  
Wheels of war keep rolling on  
Numbers and no names on the pages  
Who is weak and who is strong  
Who is weak and who is strong  
Who is weak and who is strong

Here's a song about the wheel  
Here's a song about the wheel  
Here's a song about the wheel  
Here's a song about the wheel  
Here's a song about the wheel  
Here's a song about the wheel  
Here's a song about the wheel  
Here's a song about the wheel  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round  
Wheel keep a going round and round
