

I Am Free

Patty Gurdy

Living in a sailors tale
We're staying up at night and watching the white moonlight
Bouncing off the waters face
And shedding light for a beautiful moment

I am free and I always have been
I am free and I always will be
I am free and I always have been
I am free and I always will be

Matter is what minds can make
My body's my home and together we dance tonight
Frolicking with sleepy eyes
A shimmering sky for all souls in the night

I am free and I always have been
I am free and I always will be
I am free and I always have been
I am free and I always will be

Up to the stars I go
Many horizons I know
Up to the stars I go

I am free and I always have been
I am free and I always will be
I am free and I always have been
I am free and I always will be
I am free and I always have been
I am free and I always will be
