

# Melodies Of Hope

Patty Gurdy

My beloved one, can you see what has changed?  
Since the fight began  
Had you closer then  
This is not the end  
Hold my hand one more time  
Like we used to do, side by side  
See the sun is defeating the night

I sing my melodies of hope  
Flowers grow in the barren ground  
I see them all around  
Only the wind will know  
Hear the whispers so far away  
Dreams of a brighter day

Shine bright now, let us shine brighter  
Shine bright now, love only guides us  
My melodies of hope  
Fill the sky of the darkest night  
See how they shine a light

See this barren land  
Let's rebuild it the way  
We imagined it  
Our day has come  
Don't you worry now  
May the wind have your back  
And the sunlight be warming your day

I sing my melodies of hope  
Flowers grow in the barren ground  
I see them all around  
Only the wind will know hear the whispers so far away  
Dreams of a brighter day

Shine bright now, let us shine brighter  
Shine bright now, love only guides us  
My melodies of hope fill the sky of the darkest night  
See how they shine a light  
My melodies of ho-o-pe  
My melodies of ho-o-pe

My beloved one  
I can finally see with my heart again  
Let us begin

I sing my melodies of hope  
Flowers grow in the barren ground  
I see them all around  
On with the wind we go  
Can you take us so far away?  
Greeting a better day

Shine bright now let us shine brighter  
Shine bright now love only guides us  
My melodies of hope fill the sky of the darkest night  
See how they shine a light

Heya Heyo  
My melodies of hope
