Patty Larkin

This old world is getting louder  
This old world is getting louder  
This old world is getting louder  
This old world is getting louder, yeah

This old world is getting louder  
This old world is getting louder  
This old world is getting louder  
This old world is getting louder

This old world is getting louder  
This old world is getting louder  
This old world is getting louder  
This old world is getting louder

This old world is getting louder  
This old world is getting louder  
This old world is getting louder  
This old world is getting louder
