

Last Train

Paty Cantú

It's like a deep sleep bad dream I just can't seem to wake up from
Like somebody is chasing me, but I can't get myself to run

Don't know why I never noticed
You were always on my side
Am I too late to revive this?
'Cause you couldn't wait like

The last train into the night
And this love, just ran out of time
You're fading on, on, on, on
On the last train on, on, on
Missed you like the last train

You were like my biggest fan cheering when the odds weren't on my side
But I kicked you on the side lines waiting for a signal I'd be ready
this time

Don't know why I never noticed
That you loved me all this time
Too blinded to recognize this
And you couldn't wait like

The last train into the night
And this love, just ran out of time
You're fading on, on, on, on
On the last train on, on, on
Missed you like the last train

I ran out of breath
Trying to chase you down but
All I can hatch is the distant sound that
You're gone, gone
The doors are shut
And I see you pulling away

On the last train into the night
And this love, just ran out of time
You're fading on, on, on, on
On the last train on, on, on
Missed you like the last train

Like the last train.....
Missed you like the last train.....

I missed you, I missed you, I missed you
You're gone
I missed you, I missed you, I missed you
You're gone
