

Far From The Lights Of Town

Paul Anka

Run away (run away), run away (run away)
Far from the lights of town

Now that she's left me
For somebody new
My mind keeps saying
The one thing to do

Is to run away (run away), run away (run away)
Far from the lights of town

I'll take my broken heart
And follow my shoes
I'll walk the road
The road to the blues

And I'll run away (run away), run away (run away)
Far from the lights of town

As I look down, down on the town
Here from our favorite hill
I see her light shining so bright
Why do I think of her still?

And as I stand there
A tear in my eye
I blow her a kiss
And I whisper goodbye

As I run away (run away), run away (run away)
Far from the lights of town

And as I stand there
With a tear in my eye
I blow her a kiss
And I whisper goodbye

As I run away (run away), I run away (run away)
Far from the lights of town

(Run away) run away, (run away) run away
Far from the lights of town

(Run away) run away (run away)...
