

## Second Thoughts

Paul Anka

Second thoughts about our love  
Should I stay or go  
Second thoughts about our love  
Is it going to grow  
Every time I think of leaving you behind  
Baby then I find, I still love you

Second thoughts about our love (Second thoughts about our love)  
Was it meant to be  
Second thoughts about our love (Second thoughts about our love)  
Do you still love me  
Every time I think of all the times we've had  
All the good and bad, that we've been through

I keep thinking 'bout the way you hold me  
I keep thinking 'bout the things we've done  
I keep thinking 'bout the way you told me  
Baby I'm the only one

I keep thinking every night about you  
I keep wondering what I'm going to do  
Can't I live with you or live without you  
Baby I'm torn between the two

I keep thinking 'bout the way you hold me  
I keep thinking 'bout the things we've done  
I keep thinking 'bout the way you told me  
Baby I'm the only one

I keep thinking every night about you  
I keep wondering what I'm going to do  
Can't I live with you or live without you  
Baby I'm torn between the two
