

# Something About You

Paul Anka

I see you  
And I want you  
Something about you baby drives me wild  
Something about you baby drives me crazy  
Somethings got me acting like chap

When I touch you  
It's like the first time  
Something about you makes me feel this way  
Something about you gets me feeling hazy  
Something about you makes me wanna say

I love you so  
You'll never know  
What loving you has gone and done to me  
Done to me  
By seeing you  
The need in me  
The need to be fulfilled by what I see  
By what I see

Something about you baby drives me crazy  
Something about you drives me wild  
It's the touch in you  
So much of you  
So much of you has become a part of me  
Can't you see?

I love you so  
You'll never know  
What loving you has gone and done to me  
Done to me  
By seeing you  
The need in me  
The need to be fulfilled by what I see  
By what I see
