

# Believe In Me

Paul Brady

I've been here a long long time  
Trying to get things right  
You might think I'd know by now  
But it's still out of sight  
People say I'm doin' ok  
And when will I get sense?  
They can't see what's sure to come  
When I get confidence

Cos I won't let go  
Of the world I know inside  
(gonna make it be real)  
Got a million dreams  
That I will not see denied  
When I learn to believe in me

Days I feel it's getting near  
Angels call my name  
I look up, they disappear  
Like in some schoolyard game

Cos I won't let go  
Of the world I know inside  
(gonna make it be real)  
Got a million dreams  
That I will not see denied  
When I learn to believe in me

But I won't let go  
Of the world I know inside  
(gonna make it be real)  
Got a million dreams  
That I will not see denied  
When I finally believe in me

And you won't make me walk away  
And you won't make me hide  
And you won't change a thing  
That I'm imagining

Cos I won't let go  
Of the world I know inside  
(gonna make it be real)  
Got a million dreams  
That I will not see denied

Gonna break away  
From the weight that holds me down  
(gonna float up on high )  
Gonna greet each day  
Like a jewel I just found  
When I learn to believe in me
