

# Rainbow

Paul Brady

It's like I see you for the very first time  
And something's happened in this mixed-up heart of mine  
Used to be I looked at you  
The only colour I could see was blue on blue

But heaven lent a helping hand  
Now each day I watch you open like a fan  
Shades I never knew were part of you  
Dazzle all around me, I can't take my eyes off you

Rainbow (ooh la la)  
You are like a rainbow  
I can feel my love grow  
Underneath your rainbow  
Blue heart  
Time to make a new start  
I'm about to overflow  
Underneath your rainbow

I was living with a worried mind  
Wondering if we would ever find  
The magic that we used to know  
Could it be that we had no place left to go?

But now I know our love is blessed  
Guess even magic needs a little time to rest  
Heaven opened up my eyes  
And each day I look at you it brings a new surprise

Rainbow (ooh la la)  
You are like a rainbow  
I can feel my love grow  
Underneath your rainbow  
Blue heart  
Time to make a new start  
I'm about to overflow  
Now I see your rainbow
