

Solid Love

Paul Brady

Baby, sometimes life can be
What it's not supposed to be
Friends can be so hard to find
When your heart's the constant kind

But that's all right, my sweet baby
Don't you cry, my sweet baby

When it's time to stand your ground
And they run to put you down
And you know deep down inside
That it's not just foolish pride

That's all right, little darlin'
Dry your eyes, little darlin'
Don't you worry

Baby, when this cruel world
Is tearing you apart
Let me be your shelter
When the storm hits your heart
When you think that no one is listening
In heaven up above
Let me ease your sorrow
With a heart full of love
Solid love, solid love

Baby, sometimes life can be
What it's not supposed to be
But that's all right, little darlin'
Dry your eyes, little darlin'
Don't you worry

Baby, when this cruel world
Is tearing you apart
Let me be your shelter
When the storm hits your heart
When you think that no one is listening
In heaven up above
Let me ease your sorrow
With a heart full of love
Solid love, solid love
