

Better Country

Paul Brandt

All I want is a better country
Piece of land I can call my own
Maybe we can be together in a place called home
(Place called home, place called home)
(Place called home, place called home)

I want a heart like the great wide open
I wanna see your wildest dreams
I wanna walk a mile or two in your shoes, your shoes

What if we were neighbors
Instead of being strangers
Even when we disagree
Didn't see borders, didn't see walls
I wonder how that will be

All I want is a better country
Piece of land I can call my own
Maybe we can be together in a place called home
I've found the road to freedom
It's better when we're not alone
I wanna go, do you wanna go
To a better country, yeah
(Place called home, place called home) Come on
(Place called home, place called home)

We might be coming from different places
I wanna learn how to say your name
And give you space to build the life that you choose, you choose

I can almost see it
Come on can't you feel it
This is how it's 'sposed to be
Maybe we're connected
More than we expected
Come on take a chance on me

All I want is a better country
Piece of land I can call my own
Maybe we can be together in a place called home
I've found the road to freedom
It's better when we're not alone
I wanna go, do you wanna go
To a better country, yeah

When we don't think we got a prayer
Love will take us there
Come on, take me there

All I want is a better country
Piece of land I can call my own
Maybe we can be together in a place called home

All I want is a better country
Piece of land I can call my own
Maybe we can be together in a place called home
I've found the road to freedom

It's better when we're not alone
I wanna go, do you wanna go
To a better country, yeah
(Place called home, place called home) Come on
(Place called home, place called home)
