

## Collrane

Paul Carrack

Collrane, don't fight the fire that burns inside out of control  
Collrane, I want you so bad, but I'm losing you again

I want to decide when my future lies, I want you alive, I want  
you

Collrane, I'm begging now, don't cross that bridge, don't burn  
'em down  
Collrane, you're running away, but there's nowhere to go

I want to believe that my eyes can see  
I want to be free, girl, but I want you, Collrane

Collrane, don't turn away, don't lock the door, don't turn the  
key

I want you to show where you need to go  
I want you to know that I warn you

Collrane, come with me, Collrane, oh  
Collrane, Collrane, baby, don't fight the fire, Collrane, I want  
t U so bad  
But I'm losing you again and again and again  
Collrane, I want you so bad, I want you to know
