

(Do I Figure) In Your Life

Paul Carrack

Hey there, what you gonna do?
You made yourself some new friends
Hanging around with all those fine people
Who make me nervous
Things they say cut me like a knife
Do I still figure in your life?

Hey now, I hardly know your face
It's got a brand new look about it
It's hard to trace
The way you look, the way you're smiling
To think that I once took you for my wife
Do I still figure in your life?

You say hello and then you've got to go
To think that I once took you for my wife
Do I still figure in your life?
Do I still figure in your life?
Do I still figure in your life?
