

# Forever

Paul Carrack

You are my consuming passion  
Somehow just being with you is all that matters  
If I can look in your eyes  
Then I can lose all track of time  
And a second can last forever  
You make me smile despite the sadness  
You are the only one who shines through all the madness  
I know that you must surely be  
The greatest gift I could receive  
And my heart is yours forever  
God only knows how I've waited for you  
You've brought me so much joy  
You saved my life without me knowing  
You've brought me everything I need to keep on going  
And in this world of constant change  
I know that nothing stays the same  
But my heart is yours forever.....
