

# Give Me A Chance

Paul Carrack

Why wait any longer, darling?  
Why wait in vain?  
Why look for something  
When something's there?  
Why are you twisted around  
His little finger  
When you should be aware  
Young hearts are easily broken  
If they're not handled with care?

Why live on dreams?  
Why live on dreams?

Give me a chance  
To show you love  
Say you will  
Ah, say you will

Give me a chance, darling  
To show you love  
Say you will  
Say you will

You're counting every single minute  
Every hour he's been away  
Meanwhile, he's out there with somebody  
And it makes me mad to see you this way  
He's working so long in his hard earned reputation  
As the man about the town  
But he can't live up to expectations  
You're all built up for him to knock down

Why live on dreams?  
Why live on dreams?

Give me a chance, darling  
To show you love  
Say you will  
Ah, say you will

Give me a chance  
To show you love  
Darling, say you will  
Ah, say you will

I don't even mind if it's  
Him that you really love

Give me a chance  
To show you love  
Say you will  
Ah, say you will

Give me a chance, darling  
To show you love  
Say you will  
Ah, say you will
