

Here I Am

Paul Carrack

I may not be just what you've had in mind
It may not look like a movie star
You may not be good enough for him, baby
But I'll take you just the way you are

If you're lost and you're nowhere else to go
And you can't hold you on, there's one thing you should know

If you want a man, here I am (here I am)
If you need some love, here I am (here I am)
If you want someone just to talk to (here I am)
If you want some lovin', here I am

I've always been a shoulder that you cry on
When your love affair's come to an end
I've always been the one you couldn't rely on
When you need an understanding friend

When you're down and out, and your whole world falls apart
All you gotta do is just open up your heart

If you want some love (if you want some love) here I am (here I am)
If you need some love (if you need some love) here I am (here I am)
If you want someone (if you want someone) just to talk to (here I am)
If you want some lovin' (if you want some lovin') here I am

Oh baby if you know where to find me, here I am

There are so many things I can do
But there's one thing, one thing I'd do for you, girl

If you want some love (if you want some love) here I am (here I am)
If you need some lovin' (if you need some love) here I am (here I am)
If you want someone (if you want someone) just to talk to (here I am)
If you need some lovin' (if you want some lovin') here I am (here I am)
If you want some love (if you want some love) here I am (here I am)
If you need some lovin' (if you need some love) here I am (here I am)
If you want someone (if you want someone) just to talk to (here I am)
If U need some lovin' (if U want some lovin') here I am babe (here I am)
If you need (if you want some love) some lovin' (here I am)
Here I am baby (if you need some love) (here I am)
If you want someone (if you want someone) just to talk to (here I am)
Here I am, girl (if you want some lovin') (here I am)
If U want some, want some love (if U want some love) baby (here I am)
Ooh girl girl (if you need some love) (here I am)
If U want someone baby (if U want someone) just to talk to (here I am)
Here I am (if you want some lovin') here I am (here I am)
If you want some love (if you want some love) here I am (here I am)
If you need some love (if you need some love) here I am girl (here I am)
If you want (if you want someone) (here I am)
(If you want some lovin') (here I am)
Pretty baby, oh baby (here I am) oh baby
