

I'm on Your Tail

Paul Carrack

When your loving arms unfold me
They mould me like a little piece of clay
I turn to putty in your hands
I can't afford to let you slip away

Well, I know I'm not the only one
Who's ready for a fight to get to you
But I'm here to say this to you
From here on I'll pursue you till I do

Hey, I'm on your tail
I'm on your tail

Well, you stirred up my emotions
And made such a commotion in my heart
Well, I am ready and I am steady
And you've already made a flying start

If you go down, I'll go down, down, down
Over mountain and hill
I'll leap them still with one mighty bound

I'm on your tail
I'm on your tail, look out

Well, I'll chase you through the brambles
I'll scramble through the briars
I'll jump out if I have to
In front of squeaking tyres

And if I lose your trial babe
I'll drag you like a hound
I'll be right behind you
Each time you turn around

I'm on your tail
I'm on your tail
I'm on your tail
I'm on your tail
I'm on your tail
I'm on your tail, look out
I'm on your tail, look out
