

# If You Believe In Me

Paul Carrack

I had a dream, I watched you fade  
Another came to take its place  
I've traveled far to places I've never been

I found myself when I got to you

They say the heart can lose the mind

You find the truth you left behind  
I see it now the rainbow above the cloud  
I see it there in your eyes

I know you've been hurt before  
you've got to trust your heart

I'm gonna be at your door  
If you ever fall apart

Take this chance and let me love you more  
Give me time then maybe you'll be sure  
If you believe in me, if you believe in me

I will be there

This crazy world can bring you down

Sometimes just scared to turn around  
But I'll be there to keep you from the rain  
I'll dry your tears keep you safe

I know you've been hurt before  
you've got to trust your heart

I'm gonna be at your door  
If you ever fall apart

Take this chance and let me love you more  
Give me time then maybe you'll be sure  
If you believe in me, if you believe in me

I will be there
