

Just 4 Tonite

Paul Carrack

Just for tonight let nothing come between us
I'll be your hero, standing by your side
Whatever comes, we'll face it all together
Standing in the light
Just for tonight

So much pressure, in the world today
Problems every where you see
Everybody's busy, trying to survive
I can't believe that's how it's meant to be

Just for tonight let nothing come between us
I'll be your hero, standing by your side
What ever comes, we'll face it all together
Standing in the light
Just for tonight

Politician, from the left and right
Seem to wear a thin disguise
Inspiration is, so hard to find
When everything is feeling light

Just for tonight let nothing come between us
I'll be your hero, standing by your side
What ever comes, we'll face it all together
Standing in the light
Just for tonight

Instrumental Solo

Just for tonight let nothing come between us
I'll be your hero, standing by your side
What ever comes, we'll face it all together
Standing in the light
Just for tonight

Just for tonight let nothing come between us
I'll be your hero, standing by your side
What ever comes, we'll face it all together
Standing in the light
Just for tonight
