

Lighten Up Your Mood

Paul Carrack

Lighten up your mood baby
Let's take one step at a time
Lighten up your mood baby
Everything gonna work out fine

Why let your emotions
Seem to get the better of you
'Cause we got a match made in heaven
Tell you what I'm gonna do
I'm gonna use imagination
Try to think of something new
Lighten up your mood baby
Let me see the real you

Lighten up your mood baby
No point just moping around
I don't mean to be rude baby
We gotta get your chin off the ground
I'm gonna try a little something
I've been keeping up my sleeve
One thing might lead to another
I'm buzzing like a honey bee
Don't try to spare my feelings
Gimme just a piece of your mind
Lighten up your mood baby
Everything'll work out fine

I know you're worried
Where it's all gonna end
There's light at the end of the tunnel
Waiting just around the bend

Lighten up your mood baby
Don't leave me hangin' around
There must be something I can do babe
Some way has got to be found
Because I ain't opposed to nothin'
Anything you wanna try
But I'm stuck in a lock down bubble
Let me out before I die

No more procrastination
Now's the time and here's the place
Lighten up your mood baby
Put a smile back on your face

Lighten up your mood

I ain't opposed to nothin'
Anything you wanna try
Well I'm stuck in a lock down bubble
Let me out before I die

No more procrastination
Let me tell you one more time
Lighten up your mood baby
Everything'll work out fine

Lighten up your mood baby
Lighten up your mood
Lighten up your mood baby
Lighten up your mood...
