

# Make Your Mind Up

Paul Carrack

I don't know  
How long you need to think about it  
My advice  
Don't leave it too late  
Pretty soon  
You've got to make a big decision  
Ain't no time to hesitate

You'd better  
Make your mind up  
You know sometimes you can think too much  
You'd better  
Make your mind up  
You know you can have it if you want it enough

Everybody needs to find there own direction  
Til you know just what you wanna do  
That don't mean  
You sit there waiting for perfection  
You got no more time to lose

You'd better  
Make your mind up  
You know sometimes you can think too much

You'd better  
Make your mind up  
You know you can have it if you want it enough

Well nothing's for free now  
There's always a price to pay  
Oh but if it still don't work out  
You can always find another way

Come on down  
Don't worry now don't even doubt it  
You don't have anything to lose  
Do it now and you can just forget about it  
You know that's all you've got to do

You'd better  
Make your mind up  
You know sometimes you can think too much  
You'd better  
Make your mind up  
You know you can have it if you want it enough
