Woohoo

Used to be supersticious Looking out for a hidden sign Always crossing my fingers But I was waisting my time

I was searching for something But I'm not looking anymore Because you took some persuading But it was worth waiting for

Cause there's no doubt about it You're the best thing that's happened to me No doubt about it I'm right where I wanna be

I can always remember
The first thing you said to me
Always follow your feelings
Be true to what you believe

Love don't come easy
Finally it has come to me
I'm so glad I've plenty of it
All the love I need

Cause there's no doubt about it
You're the best thing that's happened to me
No doubt about it
I'm right where I wanna be

No doubt about it You're the best thing that's happened to me There's no doubt about it Girl, I'm right where I wanna be

Woo Woohoo

Used to be under pressure
There's so much on my worried mind
I was tired and entangled
That I could never unwind

You taught me something Something I will never forget Life just keeps getting better You ain't seen nothing yet

And there's no doubt about it You're the best thing that's happened to me No doubt about it Cause I'm right where I wanna be

No doubt about it You're the best thing that's happened to me There's no doubt about it
