

## Ride On

Paul Carrack

I've been messing with my destiny  
But as long as you're here with me  
We will ride on  
Baby, right on

It's been heavy weather more or less  
Now I'm bouncing back to happiness  
We will ride on  
Baby, right on

From the moment that you came my way  
Every day is a better day  
And it's all because of you

Flowing freely like the Rio Grande  
Straight ahead to the Promised Land  
We will ride on  
Baby, right on

You give me cause just to smile again  
You must be part of a master plan  
Feels like heaven number seven  
Never more true

From the moment that you came my way  
Every day is a better day  
And it's all because of you

You and I truly harmonise  
You're the rainbow in my loving eyes  
We will ride on  
Baby, right on

From the moment that you came my way  
Every day is a better day  
And it's all because of you  
Ride on  
Baby, right on  
Ride on  
Baby, right on  
Baby, right on
