

Romance

Paul Carrack

I heard it said
"Romance was dead and gone"
And I almost believed it was true
'Til the moment you came along

I know it's so hard to find romance
When the world moves so fast
But when I look at you
I get the feeling, these feelings will last

Let's make our own romance
We've got time, we've got love
That's always been enough
Why don't we take the chance?
Pull me in close and dance
Can you bring me your heart?
Bring on the stars, bring back romance

I've been alone
I know you've been there too
So you know when there's no one to hold
Even moonlight can make you blue

But now somehow
We've got each other to fill up the night
And once we strike a spark
It won't take long before a fire will ignite

Let's make our own romance
We've got time, we've got love
That's always been enough
Why don't we take the chance?
Pull me in close and dance
Can you bring me your heart?
Bring on the stars, bring back romance

Working together we'll build our love
And once we build it strong
It's gonna last forever
