

## Shelly's Winter Love

Paul Carrack

I know I'm only Shelly's winter love  
She only seems to need me now and then  
I know I'm only Shelly's winter love  
But she's mine alone 'til springtime comes again

Springtime comes I know that she'll be leaving  
When those friends of hers start calling her from town  
So, I lie and wait for Shelly's winter season  
When her troubled moments bring her back around

I know I'm only Shelly's winter love  
She only seems to need me now and then  
I know I'm only Shelly's winter love  
But she's mine alone 'til springtime comes again

When Shelly's painted world turns cold and stormy  
That's when she finds the need to come around  
These arms of mine she knows are always waiting  
But she'll leave when love has finally thawed the winter ground

I know I'm only Shelly's winter love  
She only seems to need me now and then  
I know I'm only Shelly's winter love  
But she's mine alone 'til springtime comes again

But she's mine alone 'til springtime comes again
