

Stepping Stone

Paul Carrack

I know I was just your stepping stone.
You're not fooling anybody.
Now I'm wise to your lies.
I know I was just your stepping stone.
Well, there's got to be a reason.
I don't need to know why.

I was goin' along, mindin' my own business.
Like I always do.
Meanwhile, you're makin' your move.
But I never knew.
Well, I'm still analyzing the things that you said.
Every word that I missed been over my head.
Why was I such a fool to believe you cared for me?
Now I see.

I know
I was just your stepping stone.
You're not fooling anybody
I don't need no more lies
I know
I was just your stepping stone.
Well, there's got to be a reason
I don't need to know why

You can call me naive if you want to
I neva thought this could happen to me
And they say there's no fool like an old fool
That I agree
Woah, but every mistake that you make in your life
Is okay as long as you don't make it twice
Don't let it stop you from rolling your dice again!

I know
I was just your stepping stone
You're not fooling anybody
I don't need no more lies.
I know
I was just your stepping stone
Well, there's got to be a reason
I don't need to know why

You say I am learning my lesson
And one day it might be true
But what goes around always comes around
One day it might be you!

I know I was just your stepping stone
You're not fooling anybody
I don't need no more lies.
I was just your stepping stone.
