

Tell Somebody Who Cares

Paul Carrack

When the dark clouds gather
And catch you on a Why don't you tell somebody who cares

I know there's something on your mind
I can tell just by looking in your eyes
I know just what you're going through
You've got every reason to feel the way you do

If there's anything that you need
Don't beat around, just call on me
And I'll be there right away
When those dark clouds
Catch you on a You gotta tell somebody who cares

Farewell the friends, they let you down
They don't even try to be the understanding
They've got their busy lives to lead
They don't have the time to help a friend in need

I'll be your shoulder to cry on
If that's all it takes
By your eyes find your smile
When the price of love
Seems so hard to bear
You gotta tell somebody who cares

Tell somebody who knows
Bout the pain that grows and grows
It's no good to keep it all inside
Tell somebody and see
How truth will set you free
And you take each worry in your
I know it's easy to pretend
But it's getting harder
To remember the lessons I learnt
Don't keep your worries all to yourself
Share them around
That's what they tell me friends are for

I know there's got to be
An answer to your prayers
You gotta tell somebody who cares
Tell somebody who cares
Tell somebody who cares
