

# You Make Me Feel Good

Paul Carrack

No two ways about it  
You don't need to read between the lines  
One look in your direction  
Sends shivers down my spine  
You don't need to analyze it  
It's a little too late now to change my crazy way  
I don't mean to patronize ya  
But all I need to say, yay

You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good

I know next to nothing  
About politics and all those worldly things

When it comes to love  
I feel just like a king  
Like Adam and Eve in the garden  
I've got a taste of what it's all about  
Now it's [?] something  
I can live without

You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good

You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good  
You make me feel good
