

# America

Paul Cauthen

America, let's get it together  
Whatever happened to the good old USA?  
The country my granddaddy fought for  
Ain't the same country today  
America, we can do better  
We're on top of the world but we're not here to stay  
Listen to the cries of the people  
People that are working every day

America  
America

Seeing lines red, black, and blue  
Well the only line that divides is me and you  
Tear down the fear of the other race  
Learn to look each other in the face

America, we can do better  
We're on top of the world but we're not here to stay  
America, we can do better  
We're on top of the world but we're not here to stay

The hatred is the center of all evil  
Let's learn to forgive every day

America  
America  
America  
America  
America  
America  
America  
America  
America
