

Angels & Heathens

Paul Cauthen

Saturday, you say you're coming through
Saddle up, and do what we're gonna do
Just one request, let's stay the same
We're living up to our holy names

Angels and heathens
Ain't nothing but all god's children
Angels and heathens
You can stay
Just promise me you'll never change
Promise me you'll never change

Seems like the years have gone
Since we chased the stars till the early morn'
On the back of a Chevrolet pickup truck
Yeah, we rode it all night, yeah, we like to (uh)
On sunsets and breaking waves
Hiding our hearts from all our yesterdays
We should call back to our younger selves
Remember when you promised me you'd never change

Angels and heathens
Ain't nothing but all god's children
Angels and heathens
You can stay
Just promise me you'll never change
Promise me you'll never change
Just promise me you'll never change
Promise me you'll never change

Just promise me you'll never change (angels and heathens)
Ain't nothing but all god's children
Angels and heathens
You can stay
Just promise me you'll never change
(Angels and heathens)
(Angels and heathens)
Just promise me you'll never change

Just promise me you'll never change
