

Lil Son

Paul Cauthen

Don't you run, little son, today is your day, little son
No need to be afraid, little son
Lord, you got it made, little son, born with a faster gun, little son
Them shadows you'll outrun, little son

Whenever I'm long gone you'll speak of my name
Tell them that I pray
Yes, I might have done some wrong, it's all in the past
Those sins will never last, all I gotta do is ask

Fall, rabbit fall, have you learned anything at all, rabbit fall?
You can't win 'em all rabbit fall?
Sing, sparrow sing, one day you'll be the queen sparrow sing
You can do anything, sparrow sing

Whenever I'm long gone you'll speak of my name
Tell them that I pray
Yes, I might have done some wrong, it's all in the past
Those sins will never last, all I gotta do is ask

Don't you run, little son, today is your day, little son
No need to be afraid, little son
Fly, sparrow, fly, let that bastard die, bastard die
You've never been so wise, so wise

Whenever I'm long gone you'll speak of my name
Tell them that I'm pray
Yes, I might have done some wrong, it's all in the past
Those sins will never last, well, all I gotta do is ask
Little son
