Marfa Lights

Paul Cauthen

The blue light, it matched her dress
With her eyes she said "hello"
I was struck, I must confess
I didn't know how far we'd go

Our love was runnin' with the Marfa lights
For miles, for miles yeah
Our love was runnin' with the Marfa lights
For miles, for miles

Those dark sunglasses hide the way you feel
You bite your tongue, I speak my mind
In the dark like a midnight train
You're flyin' blind, we were flyin' blind

Our love was runnin' with the Marfa lights
For miles, for miles yeah
Our love was runnin' with the Marfa lights
For miles, for miles

Split my heart, gave half to her
Sold what's left to the road
I ripped my chest right in two
I tore my heart from my soul

Our love was runnin' with the Marfa lights
For miles, for miles yeah
Our love was runnin' with the Marfa lights
For miles, for miles yeah
Our love was runnin' with the Marfa lights
For miles, for miles yeah
Our love was runnin' with the Marfa lights
For miles, for miles

Our love was runnin' with the Marfa lights
For miles, for miles yeah
Our love was runnin' with the Marfa lights
For miles
