

Resignation

Paul Cauthen

A resignation
My resignation
From the space station
I've got to get out before they let me go, before they let me go
Inebriation
My intoxication
Needed medication
I've gotta get out before they let me go, before they let me go

Then I caught a cold wind one night
They took me to a place I swore I'd die
Now I'm feelin' so much better
Livin' in this weather
I'm gettin' green, oh yeah I'm gettin' right
I'm gettin' by on getting by
Now life is so much better
I'm handin' in this letter
I'm beggin' for this kind of life
I wish that they'd accept my resignation

They say I'm crazy
Boy, they say I'm lazy
I better hit up Daisy
And head to the last call tavern tonight, tavern tonight
Emancipation
My aproclamation
Hop up in this Lincoln
We'll head to the last call tavern tonight, last call tavern tonight

Then I caught a cold wind one night
They took me to a place I swore I'd die
Now I'm feelin' so much better
Livin' in this weather
I'm gettin' green, oh yeah I'm gettin' right
I'm gettin' by on getting by
Now life is so much better
I'm handin' in this letter
I'm beggin' for this kind of life
I wish that they'd accept my resignation
Resignation

Capitulation
Don't attack the nation
Hand in your resignation
And head to the last call tavern tonight, last call tavern tonight
A resignation
My resignation
From the space station
Head to the last call tavern tonight, last call tavern tonight
