You're Still New to Me

Paul Davis

Harold comes over and cries on my shoulder
While Linda keeps you on the phone
Lord knows they're tryin' to keep their love from dyin'
But somehow they can't get along

As their love grows older their hearts just grow colder
It looks like it's over for them
But honey I loved you so much the first time that we touched
And I love you more now than then

Darlin', you're still new to me
The longer that I hold you the more I believe
That our first night together
Well, it's gonna last forever, if only in our memory

And you know, time won't be stealin'
That old first time feelin'
You'll always be new to me

Let's bring back the good times
Those days that were so fine and we'll play our favorite old so
ngs
Well, it's a scratchy old record but it sounds good as ever
When we're dancin' and you sing along

Darlin', you're still new to me
The longer that I hold you the more I believe
That our first night together
Well, it's gonna last forever, if only in our memory

And you know, time won't be stealin'
That old first time feelin'
You'll always be new to me

And honey, time won't be stealin'
That old first time feelin'
You'll always be new to me
