

Change Your Mind

Paul Kelly

Staring at the river
Watching the water flow
I can't stop the river
Never, no

If I could make the mountains
Fall into the sea
Maybe I could make you
Fall for me

(Would you) change your mind
Change your mind, change your mind

All the stars keep turning
Wheeling all night long
I wish you'd turn
And hear my song

If I could make wild horses
Come and get their hay
Maybe I could make you
Sway my way

(Would you) change your mind
Change your mind, change your mind

Maybe when you're sleeping
I can make a spell
And when you wake up
I won't tell

(Would you) change your mind
Change your mind, change your mind
