

Coma

Paul Kelly

I can hardly stand your touch
I tremble and shiver
It's been so long since I felt so much
I just came out of a coma

So take it easy, take it slow
Take your time, dear lover
Inch by inch melts the snow
I just came out of a coma

Help me, help me, help me love
Help me, help me, help me love

Sky so blue, walls so white
I'm crying at their colours
Yeah, I know I ain't talking right
I just came out of a coma

Help me, help me, help me love
Help me, help me, help me love
I just came out of a coma
