

## Down On My Speedway

Paul Kelly

C'mon Suzie let's get ready to go  
We'll be out of this town before the sun is low  
I got a race track running in my head  
The present, past and the future dead  
Down on my speedway  
Keep your eye on number four  
They strap him in and then they weld the door  
C'mon and tangle deep down in my wires  
There's something smoking must be fire  
Down on my speedway  
Push your starter, jump your connection  
This terraplane needs a fuel injection  
I got a race track running in my head  
The present, past and the future dead  
Down on my speedway
