

# I'm on Your Side

Paul Kelly

You've been crying a long long spell  
You've been drinking from the Devil's own well  
You're just hanging on to your pride  
Oh, hold on to me now  
I'm on your side

I'm on your side when you think there's no-one  
I'm on your side when darkness falls  
I'm on your side  
All you gotta do is call

The trees on the shoreline are all fresh from the rain  
The ship on the water's heading for the main  
Open your window, let the good air inside  
You don't always know when  
There's a change in the tide

I'm on your side when others turn on you  
I'm on your side when your back's to the wall  
I'm on your side  
All you gotta do is call

I'm on your side though you might not believe it  
I'm on your side when the shit rains down  
I'm on your side  
I'm gonna stand your ground  
Stand your ground  
Call on me  
All you gotta do is call
