

Stumbling Block

Paul Kelly

I can't get around it and I can't get through it
I can't go over it and I can't go under it
I'm scared of what I might find if I ever get behind it
Stumbling block, stumbling block, stumbling block

If I wait a while it just might go away
I suppose I should just get down on my knees and pray
I'm sure if I could get just one good night's sleep it'll look
better in the day
Stumbling block, stumbling block, stumbling block
Maybe I should pay someone to come here and remove it
Or I could just chip away at it bit by little bit
I guess I could build me a bomb and blow it up in one big hit
Stumbling block, stumbling block, stumbling block

Some of my friends say I should call in the mystics
Or find me a philosopher to come here and tell me it don't exist
First there is a mountain, then there is no mountain, then there is
Stumbling block, stumbling block, stumbling block
If I ever get done with this I'm gonna make a brand new start
I gotta get my thinking straight and put the horse before the cart
If I had the balls I'd wrap this thing up in plastic and call it art!
Stumbling block, stumbling block, stumbling block

I'm gonna call up every TV station
And the museum of science, maybe they're looking for a special
donation
I could sell tickets and take it on tour all around the whole goddamn nation
Stumbling block, stumbling block, stumbling block
It's in your mind, she says, it's within you
She likes saying stuff like that, I got a problem if it's true
If you can't get rid of what's inside you it's bound to destroy
you!
Stumbling block, stumbling, block, stumbling block
