

## Taught By Experts

Paul Kelly

You stand there looking so surprised  
Sad confusion in your eyes  
I know what you're going through  
Oh, baby, I've been there too  
And it hurts  
I was taught by experts

You say I play a cheating game  
I never keep the rules the same  
I learned a thing or two  
What I learned I learned from you  
And it works  
I was taught by experts

You put the weapon in my hand  
You made me what I am

Now everything has turned around  
Down is up and up is down  
You got your fingers burned  
Your little worm has turned  
In the dirt  
I was taught by experts  
Don't it hurt  
I was taught by experts
