

I Wanna Cry

Paul McCartney

Well, you said you loved me
But you know it was a lie
You said you loved me
But you know it was a lie
And that's the reason, but it's not the only reason
I wanna cry, cry, cry

You said you would find me
But you know you never came, yeah
You told me you would find me, pretty baby
But you know you never came, yeah
Well, the other night, you talked in your sleep, baby
You called out another man's name, yeah

You said you loved me
Oh, but you know it was a lie
You said you loved me
Whoa, but you know it was a lie
Ooh, that's the reason, but it's not the only reason
I wanna cry, cry, cry
